

HTML & CSS Assessment - Endava Social Media Prototype

Create a **Dark-Themed Social Media Webpage Prototype For Endava** using only HTML and CSS.

Your prototype must include the following sections:

1. **Header & Navigation** – Endava logo (local image), fixed at the top, with navigation links (Feed, Profile, Messages, Settings).
2. **Feed Section** – At least 3 sample posts, each with a profile picture, username, timestamp, post text, optional image, and action icons (like, comment, share).
3. **Profile Sidebar** – A mock profile card with profile picture, name, role, and short description. Include a Follow/Unfollow button.
4. **Comments Section** – A styled comment thread for one of the posts, showing at least 3 sample comments with profile pictures, names, timestamps, and reply icons.
5. **Footer** – Endava copyright text, along with local social media icons (LinkedIn, Twitter, YouTube, X, Facebook etc.) with hover effects.

Final Note

For reference, you may use the following color schemes:

Primary Colors	Solid Blue Shades (90%-10%)
#FF5640	#30404B
#192B37	#47555F
#FFFFFF	#5E6A73
	#758087
	#8C959B
	#758087
	#BABFC3
	#D1D5D7
	#E8EAEB

To apply the typography, you can include the following lines of code in your style sheet.

```
@font-face {
    font-family: 'DavaSans';
    src: url('./DavaSans/DavaSans-Regular.ttf');
}
body {
    font-family: 'DavaSans', sans-serif;
}
```

We wish you all the very best 🚀 Build something Endava-worthy!
